Black

OS-550

# Delve Tablet Arm Chair

## General Care Tips

**Daily Care:** Vacuum fabric upholstery regularly using an upholstery attachment to remove dust, dirt and allergens. This is particularly important for high-use areas like seat cushions and armrests.

**Spot Cleaning:** For minor spills or stains, blot the area immediately with a clean, dry cloth to absorb as much liquid as possible. Then, use a mild solution of water and mild soap to gently clean the stain. Always blot—never rub—to avoid spreading the stain or damaging the fibers.

## What to Avoid

**Excessive Water:** Avoid soaking the fabric, as too much moisture can lead to mold, mildew and damage to the upholstery padding.

**Bleach and Harsh Chemicals:** Do not use bleach or harsh chemical cleaners, as these can weaken fabric fibers, cause fading or create permanent discoloration.

**Abrasive Materials:** Never use steel wool, scouring pads or any abrasive materials on upholstered surfaces, as they can cause permanent damage.
