Technical Specifications

Substrate Core: MDF Standard E0

Material Parameters

Width: 1200mm | **Length:** 2400mm | **Thickness:** 18mm | **Weight:** 20Kg/m²

Face: Double Sided | **Edging:** Standard ABS Edgebands | **Repeat:** None

General Care Tips

Daily Care: Start by dusting the laminate surface with a soft, dry cloth to remove loose dirt and dust. For routine cleaning, use a damp cloth with a mild detergent or a specifically formulated laminate cleaner. Ensure that the cloth is only slightly damp to avoid excess moisture.

Deep Cleaning: For a more thorough clean, mix a small amount of mild dish soap with warm water. Gently wipe the surface using a soft cloth, following the grain or pattern of the laminate. Rinse the cloth with clean water and wipe again to remove any soap residue. Dry the surface with a clean, dry cloth to prevent water spots or streaks.

What to Avoid

Bleach and Harsh Chemicals: Avoid using harsh chemicals such as bleach, ammonia or acidic cleaners, as these can damage the laminate's protective layer and lead to discoloration or peeling.

Abrasive Materials: Never use steel wool, scouring pads, or any abrasive materials on laminate surfaces, as they can cause scratches and dull the finish.
